Statement of Service Performance

"What did we do?", When did we do it?"

For the year ended

Description of the Entity's Outcomes

Through business and sustainable development, we seek to reduce extreme poverty within communities in north-eastern Myanmar. Our SEED BANK program are community based loans. We fund whole communities with a repayable loan at low interest which is repaid annually. This prevents debt slavery in underdeveloped areas.

Description and Quantification (to the extent practicable) of the Entity's Outputs:	Actual	Actual
	This Year	Last Year
Where Donations Went:		
Field Programmes	59%	86%
Held in Reserve for Field Programmes	32%	0%
Promotion & Fundraising	4%	11%
Administration	5%	3%

New Hope Seed Banks:

A community based, very low interest, seed bank for subsistence farmers, offering them protection from loan sharks. The whole community takes the loan together so if one falls all share in the fall. Unity is the ultimate aim of the programme - it is our definition of community development. Further, interest paid accrues so that, in time, the community can start to run their own seed bank. We have found during monitoring and evaluation that, in EVERY case, a sense of unity and community purpose has deepened through this programme. This has resulted in noticeable improvements to infrastructure, increased school attendance, improved health outcomes and better standard of living. This has been our most successful programme to date and has become the backbone of Circuit's work in Myanmar.
